PURPOSE

The DoD Visual Information Style Guide (VISG) provides a standard method of writing captions and providing complete metadata for DoD media products. DoD imagery requires clear and concise captions and metadata that capture an accurate historical record.

The Associated Press (AP) Stylebook (reference b) is the primary reference for writing effective captions. The VISG adheres to the tenets of spelling, grammar, punctuation and general style outlined by AP.

This publication supplements AP and pertains to DoD-specific issues not addressed, such as military terms describing service members, equipment, places and entities. The VISG also provides instruction on providing metadata, submitting imagery for archiving, imagery ethics, and a host of other subjects.

The VISG is written for all producers, editors and users of DoD visual information (VI). This publication applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities covered within the parameters of DoDI 5040.02 (reference a).

Summary of updates and changes

This edition of the DoD Visual Information Style Guide, formerly known as the DoD Captioning Style Guide, incorporates numerous changes and clarifications to Visual Information written style and procedures. Many of the changes were added as the result of the concerted efforts of the Defense Imagery Management Operations Center and the Visual Information Editorial Board, which comprises VI experts in all five branches of the armed forces.

Most notably, the change of this document’s title reflects its coverage of more than just captioning. Over several years, the guide has evolved to describe procedures, detailed metadata, photographic ethics and a host of other subjects that govern day-to-day VI concerns.

Furthermore, Chapter 8, DoD Visual Information Ethics, has been rewritten to provide greater clarity on the DoD’s commitment to the highest ethical standards in Visual Information.

In addition to the new edition of the Visual Information Style Guide, a mobile application containing the content of this document will be made available in late summer 2017 for download and use by DoD visual information personnel. The mobile app does not need cell coverage in order to operate, allowing use of the app in austere conditions such as forward deployment or shipboard service. The app will be available for personal Apple and Android devices.

What follows is a summary of changes and additions to the DoDVISG.

Chapter 1, Matters of style:
• aboard
• Arabian Gulf (primary style for body of water also known as Persian Gulf)

• Clarification to cropping and BW guidance

Chapter 9, Additional resources:
• Service style guide links added
This chapter provides the correct style for commonly used terms within DoD captions. The list is by no means comprehensive; if a term does not appear below, refer to *The Associated Press Stylebook* or *Webster's New World College Dictionary* for the appropriate style and spelling, the *National Geographic Atlas of the World* for place names, or to the Service-specific fact sheets for the correct spelling of aircraft, vehicles and equipment (see Chapter 9, Additional resources, on page 52).

**abbreviations** Only use abbreviations on second reference; the abbreviation must be in parentheses after the first reference. Note: The only exceptions to this are Navy and Marine Corps aviation squadrons (see page 19), NATO, SEAL, USO, POW/MIA and abbreviations covered in the AP Stylebook.

**aboard** Use *aboard* when referring to people or cargo in or on a ship or aircraft. Do not use *aboard* to describe being on a land base. *Onboard* refers to organic parts of a vessel, such as an onboard weapons system. See *onboard*.

*U.S. Sailors eat breakfast aboard the guided-missile cruiser USS Vella Gulf (CG 72) in the Mediterranean Sea June 4, 2014.*

**Afghan cities** See Table 5, Afghan provinces, on page 25 for the proper spelling for several major cities in Afghanistan.

**Air Force One** Any U.S. Air Force aircraft carrying the president. The term is a call sign that applies *only* when the president is aboard the aircraft. The main aircraft serving in this capacity is the VC-25A.

**Airman, Airmen** Capitalize when referring to members of the U.S. Air Force; not capitalized when referring to members of foreign air forces.

**all hands/all-hands** Two words as a noun: *The commanding officer called all hands to the meeting.* Hyphenate as an adjective or a compound modifier: *The Sailors attended the all-hands call.*

**alongside** One word.

**American flag, U.S. flag** Note: *flag* is lowercase.

**amphibious assault ship** Do not capitalize, even when referring to a specific ship. For example: *U.S. Sailors and Marines man the rails of the amphibious assault ship USS Nassau (LHA 4).*

**Anzac** Capitalize, but do not use all caps. *Anzac* stands for the Australian and New Zealand Army Corps of World War I. Anzac Day is celebrated annually by both nations April 25; U.S. service members are often present at these celebrations.

**aqueous film-forming foam** *AFFF* is acceptable on second reference.

**Arabian Gulf** Primary style for the body of water also known as the Persian Gulf. Do not confuse with the nearby Arabian Sea. See *Persian Gulf.*

**Arabic names** Follow AP style for Arabic names.

**assault amphibian battalion** Lowercase unless used in a unit name.

**assault amphibious vehicle** The Marine Corps’ AAV7A1 tracked vehicle. Not *amphibious assault vehicle*. Do not confuse with amphibious assault ships.

**assistant secretary** Capitalize before a name as part of a title; use lowercase when the title appears after...
the name.

**at sea** Do not use “at sea” in place of the name of a body of water. If the specific location is undisclosed, say so, but reference a general body of water or U.S. fleet area of responsibility. See here.

**back blast** Two words.

**Bambi bucket** Do not use. See **helicopter bucket**.

**battalion landing team** In unit names, capitalize it, followed by a comma and the unit’s full name.

**Blue Angels** The Navy’s flight demonstration team. Simply refer to the group as **the Blue Angels**. The team currently flies the F/A-18 Hornet aircraft.

**bounding overwatch** Jargon. Use **maneuver** or another synonym.

**breech/breach** _Breech_ refers to the part of an artillery piece where rounds are loaded. The verb _breach_ means to penetrate an obstacle or defense; as a noun, _breach_ is the hole in a defense.

**caption credit** See **photographer’s credit**.

**casualty evacuation** CASEVAC is acceptable on second reference.

**cavalry** Use lowercase unless it is part of a unit name. Do not confuse with _Calvary_, which is a religious term.

**change of command ceremony** Do not hyphenate the compound adjective.

**Civil Air Patrol** The civilian volunteer auxiliary of the U.S. Air Force, best known for search and rescue, disaster relief and cadet programs. Although Civil Air Patrol members work closely with the Air Force and they hold rank within Civil Air Patrol, they are not Airmen. **CAP** is acceptable on second reference.

**civilian titles** Do not use courtesy titles such _Mr._, _Mrs._, _Miss_, or _Ms._ unless requested by the named person. **Coast Guardsman, Coast Guardsmen** Capitalize when referring to members of the U.S. Coast Guard; not capitalized when referring to members of a foreign coast guard.

**Coast Guard Auxiliary** The civilian volunteer auxiliary of the U.S. Coast Guard, best known for boater safety programs. Although auxiliaryists work closely with the Coast Guard and they hold job titles within the Auxiliary, they are not Coast Guardsmen.

**Coast Guard enlisted ranks** Do not use ratings. See Coast Guard rank table on page 20.

**colors** When referring to the flag of the United States, _American flag_ or _U.S. flag_ are the preferred styles. Do not use in reference to the flags of other nations. Acceptable when referring to unit flags and guidons. For example: _The battalion colors were furled during a transfer of authority ceremony_.

_U.S. Army Command Sgt. Maj. Rory Malloy, left, the commandant of the U.S. Army Sergeants Major Academy, shakes hands with a recent graduate of the academy at Fort Bliss, Texas, Sept. 12, 2012._

**commander in chief** Do not hyphenate; use lowercase unless it appears before a name.

**commanding officer** A job title, not a rank. Do not capitalize unless before a name. Use the person’s service and rank along with the title and the unit he or she commands.

_U.S. Air Force Col. Christopher Sage, the commanding officer of the 4th Fighter Wing..._

_U.S. Coast Guard Capt. Patrick Murphy, the commanding officer of Coast Guard Base Cleveland, ..._

**commands** Write out the full name of all U.S.
combatant commands on first reference; acronyms are acceptable on second reference. (see list below)

**decommissioned ships** Write as you would an active vessel, but make it clear the vessel is no longer in service. See museum ships.

- The decommissioned aircraft carrier USS Kitty Hawk (CV 63) will remain in the Ready Reserve Fleet until 2015.

**distinguished transfer** Do not use.

**district** Per AP, do not capitalize district when used in a geographic name, such as Sangin district.

Do not capitalize generic descriptors for exercises (e.g., operational readiness exercise, joint task force exercise, composite training unit exercise).

**fast-rope, fast rope** Hyphenate when used as a compound verb or adjective. No hyphen when used as a noun.

- U.S. Soldiers fast-rope from a UH-60 Black Hawk helicopter.
- U.S. Soldiers improved their fast-roping skills during the exercise.
- U.S. Soldiers prepare a fast rope before exiting a helicopter.

**firefighter** One word.

**fireman** In the Navy and Coast Guard, this term refers to a Sailor specifically trained in an engineering or hull repair rating. While damage control is among the fireman ratings, the term fireman is not to be confused with firefighter. If the term is used as a part of a named individual’s rank or rating, it is capitalized.

**first lady** Per AP, it’s not a formal title, therefore not capitalized.

**flight line** Two words.

**foreign object debris, foreign object damage** Items that are picked up from a flight line or flight deck before flight operations are foreign object debris. Foreign object damage results from debris that has impaired an aircraft. FOD is acceptable on second reference as long as the distinction between debris and damage is clear.

- U.S. Sailors conduct a foreign object debris
Aircraft are kept in a hangar, not a hanger. (FOD) walkdown on the flight deck of the aircraft carrier USS Nimitz (CVN 68) in the Pacific Ocean June 7, 2013. The Sailors collected about seven pounds of FOD.

**foreign services** Capitalize formal names of foreign services (e.g., Japan Maritime Self-Defense Force, Afghan National Army, Russian Ground Forces). Informal or generic names (e.g., Japanese navy, Afghan army, Russian army) are lowercase. Do not use the foreign-language name for a service (in other words, don’t use Armada de Mexico for the Mexican navy).

**foreign service members** Do not capitalize the words soldier, sailor, airman, marine or coast guard when referring to foreign service members. If a foreign service member’s rank corresponds to a U.S. rank, use AP style. If not, spell out the rank (e.g., Commodore, Field Marshal.)

**forward operating base** Use lowercase unless it accompanies the name of a specific location. FOB is acceptable on second reference.

- U.S. Marines set up checkpoints outside the forward operating base.
- U.S. Marines set up checkpoints outside Forward Operating Base Warrior.

**from** Do not use from to describe a service member’s affiliation with a military unit. Use with, assigned to or attached to. The term from implies hometown or native country.

- U.S. Marines with the 26th Marine Expeditionary Unit participate in a training exercise.

**gay marriage** See same-sex marriage.

**guided-missile, guided missile** Hyphenate as a compound adjective when describing types of ships (e.g., guided-missile cruiser). No hyphen when used as a noun (e.g., a guided missile was test-fired).

**guidon** Note spelling. A guidon is a pennant, or small flag, carried as the standard of a smaller (company- or platoon-sized) military unit. Do not confuse a guidon with a larger unit’s flag or colors.

**hangar** Aircraft are kept in a hangar, not a hanger.

**-hawk helicopters** Note exact spelling, spacing and capitalization: UH-60 Black Hawk, HH-60 Pave Hawk, VH-60 White Hawk, SH-60 Sea Hawk, MH-60 Sea Hawk, HH-60 Jayhawk. Note: “Knighthawk” is not the proper name for the MH-60 Sea Hawk. See Table 4, Selected Military aircraft and vehicles, on page 24.

**helicopter bucket** Lowercase. Do not use Bambi bucket when referring to the firefighting apparatus, as it is a specific brand name.

**here** Do not use “here” to describe a location. Use the actual location name, body of water or the term undisclosed location with a general region (e.g. in an undisclosed location in Southwest Asia.) See at sea.

**Hesco barrier** Use barrier or fortification, as Hesco is a specific brand name.

**High Mobility Artillery Rocket System** Capitalize; HIMARS is acceptable on second reference.

**high speed vessel** The correct way to identify a high speed vessel in a caption is as follows: high speed vessel Swift (HSV-2). In subsequent references, HSV-2 is acceptable. Note: This is the only Navy-operated vessel type for which a hyphen is acceptable in the designator. See the entry for Military Sealift Command.

**home port/homeported** The term home port is two words, while homeported is one word.

- The ship is headed for its home port of San Diego.
- The ship is homeported in San Diego.

**hometown** Do not include the hometowns of service members in captions.

**hospital ship** Do not capitalize. For example: The hospital ship USNS Mercy (T-AH 19) was originally an oil tanker. Note: This is a Military Sealift Command ship, therefore a hyphen is acceptable in the hull number. See hull numbers, Military Sealift Command.

**howitzer** Lowercase. Not a proper noun.

**hull numbers** Include hull numbers in parentheses after ship names on first reference. United States ships (US) and U.S. Coast Guard Cutters (USCGC) are not hyphenated; U.S. Naval Ships (USNS)

---

- USCGC Diligence (WMEC 616)
- JHSV Spearhead (JHSV 1)
- LCAC 8
- LCU 1627
- LCM 8596
with a classification beginning with “T” get a hyphen between the “T” and the remaining letters, but not between the letters and the numbers. U.S. Army vessel (USAV) hull numbers are hyphenated.

**Humvee** When referring to a high-mobility, multipurpose wheeled vehicle (HMMWV), *Humvee* is acceptable on first reference; the word is capitalized. It is not necessary to spell out the entire term or use the abbreviation. However, the abbreviation can be used in keywords.

**insure/ensure** To *insure* means to take out insurance on something; to *ensure* means to make certain or guarantee. For example: *People should insure their vehicles to ensure they can get a replacement in case of an accident.*

**ISIL** See **ISIS**.

**ISIS, Islamic State** Spell out *Islamic State of Iraq and Syria* on first reference. ISIS is acceptable on subsequent references. Only use the alternate term Daesh with an explanation, such as “Daesh, the common Arabic term for ISIS.” See **Daesh**.

**jammer** When describing a vehicle used to load ordnance into aircraft, use *weapons loader* or the actual nomenclature of the vehicle. If describing a device used in electronic warfare, use *electronic countermeasure* or similar wording. See **jargon**.

**jargon** Don’t use a military term or slang expression that might require further explanation for the general public; if such a term is used, provide a short explanation of its meaning.

**joint** Per Joint Publication 1-02: Connotes activities, operations, organizations, etc., in which elements of two or more military departments participate. See **combined**.

**joint combined exchange training** A multiservice and multinational exchange of skills and knowledge between U.S. forces and their host nation counterparts.

**jumpmaster** One word.

**landing zone** Use lowercase unless it accompanies the name of a specific location. *LZ* is acceptable on second reference.

*U.S. Soldiers gather their gear after parachuting onto Landing Zone Tombstone.*

*The landing zone was not cleared, so the mission was aborted.*

**LCAC** The correct term is *landing craft, air cushion*. Use it for singular and plural. Use lowercase unless identifying a specific, numbered LCAC (e.g., *Landing Craft, Air Cushion 8*). The acronym is acceptable on second reference.

**LCM** The correct term is *landing craft, mechanized*. Use it for singular and plural. Use lowercase unless identifying a specific, numbered LCM (e.g., *Landing Craft, Mechanized 8596*). The acronym is acceptable on second reference.

**LCU** The correct term is *landing craft, utility*. Use it for singular and plural. Use lowercase unless identifying a specific, numbered LCU (e.g., *Landing Craft, Utility 1627*). The acronym is acceptable on second reference.

**lectern, podium** Per AP, a *lectern* is a small desk a public speaker stands behind; a *podium* is the stage or raised floor the speaker stands upon.

**life jacket** Use *life jacket*, not *lifejacket* or *life-jacket*.

**life raft** Use *life raft*, not *liferaft* or *life-raft*.

**line, rope** Do not confuse the terms. *Line* is a length of cordage that is in use (such as a mooring line). *Rope* refers to cordage that is still on the spool and has not been used.

**littoral** Refers to shallow water operations or proximity to shore. Do not confuse with the word *literal*.

**live fire, live-fire** Two words as a noun: *The practice range was for shooting blanks only; it did not allow live fire*. Hyphenate as an adjective/compound modifier: *The live-fire exercise lasted all day*.

**loadmaster** One word.

**local** Use this word only when it is necessary to differentiate a local leader or organization from a foreign one. Most of the time it will be unnecessary. In the following example, the use of the word adds nothing to the meaning of the sentence, as is demonstrated by removing it.

*U.S. Soldiers talk to local Iraqi citizens at a local market in Baghdad.*

*U.S. Soldiers talk to Iraqi citizens at a market in Baghdad.*

In the following sentence, however, the word adds context:

*Local leaders and charitable organizations have joined the U.S. effort to provide disaster relief to affected areas.*

**locations** Follow AP style rules when listing geographic names, directions and regions. The names of airports, hospitals, etc., should not be listed like cities. For example: *Beaumont Airport, Texas*. There is no such city in Texas, so the correct way to refer to this in a caption is *Beaumont Municipal Airport in Beaumont, Texas*. See **here, at sea**.

**loose/lose** Loose means not tight, while *lose* means to misplace something or failing to win.
The lug nuts were loose, causing the Humvee to lose its wheels.

**man the rails** Not capitalized.

**marine vessel** MV is acceptable on second reference.

**Mark weapons** Do not use the abbreviations MK or Mk. Use the indefinite article a before the name of the weapon. No hyphens.

**Marine, Marines** Capitalize when referring to members of the U.S. Marine Corps; not capitalized when referring to members of a foreign marine corps.

**Marine One** Any Marine Corps helicopter carrying the President. The term is a call sign that applies only when the president is aboard the helicopter. The main helicopters serving in this capacity are the VH-60N White Hawk and the VH-3D Sea King.

**mass casualty/mass casualty exercise** No hyphen.

**medical civic action program MEDCAP** is acceptable on second reference.

**military decorations** Military decorations and awards are never won. Use terms such as earned, received or presented with. A person who holds an award is a recipient, not a winner.

A U.S. Army Staff Sgt. Salvatore Giunta, a recipient of the Medal of Honor, smiles as he and his family meet with Secretary of Defense Robert M. Gates at the Pentagon in Arlington, Virginia, Nov. 17, 2010. Giunta received the nation’s highest military honor for rescuing two members of his squad during an ambush on his platoon in Afghanistan in October 2007.

**military operations on urban terrain MOUT** is an out-of-favor term; the preferred term is urban operations (UO). The term MOUT is still in limited use, however, and may be used when referring to a specific MOUT city or MOUT site, but should not be used in the following senses: “... train for military operations on urban terrain ...” or “... conducts military operations on urban terrain training.” See **urban operations**.

**Military Sealift Command** Most MSC ships carry the designation USNS (United States Naval Ship) and do not require Military Sealift Command in the description, as USNS implies Military Sealift Command.

However, some ships carry SS, MT or MV designators and do require clarification they belong to MSC.

Furthermore, if an MSC helicopter is described in the caption, make it clear it belongs to MSC. Most MSC ships carry the prefix “T-” before their hull numbers. See **hull numbers, marine vessel and vessel**.

The dry cargo ship USNS Wally Schirra (T-AKE 8) transits alongside the aircraft carrier USS Nimitz (CVN 68) in preparation for an underway replenishment in the Pacific Ocean Aug. 7, 2014.

The Military Sealift Command aviation logistics support ship SS Wright (T-AVB 3) transits the Atlantic Ocean June 7, 2013.

**military titles** Abbreviate all military titles in accordance with AP style. On second reference, drop the title and use just the last name. See Table 1, Military rank abbreviations, pages 20-21, for the appropriate abbreviations for each rank.

**military unit names** See the section on **military units**, pages 15-18.

**mission-oriented protective posture** Spell out on first reference. The acronym MOPP is acceptable on second reference. Use the level number (e.g., mission-oriented protective posture level 3) if called for in the caption.

**modular airborne firefighting system** Do not capitalize. MAFFS (or MAFFS II, if applicable) is acceptable on second reference.

**MRAP** The correct term is mine-resistant, ambush-protected vehicle. The appropriate use, with acronym, is MRAP vehicle. On first use, spell it out, and do not capitalize. Also: mine-resistant, ambush-protected all-terrain vehicle, second reference M-ATV.

U.S. Airmen load mine-resistant, ambush-protected (MRAP) vehicles Aug. 27, 2011. The MRAP vehicles were to be transported to the U.S. Central Command area of responsibility.

**MRE** The correct term is either meal, ready to eat (singular) or meals, ready to eat (plural). MRE or MREs is acceptable on second reference.

**museum ships** If a museum ship is mentioned in a caption, use the official name of the museum or write it as you would any other decommissioned ship.

U.S. Sailors tour the Battleship Missouri Memorial at Pearl Harbor, Hawaii, June 5, 2012.

U.S. Sailors tour the decommissioned battleship USS Missouri (BB 63) at Pearl Harbor, Hawaii, June 5, 2012.
names Use first and last names for all persons described in a caption. If operational security concerns call for less identification, describe the person(s) by their service and/or job description. (Note: Single names are appropriate for persons who only have one name).

nation Use lowercase unless at the start of the sentence.

national anthem Not capitalized, per AP.

National Guard If service members in an image are part of a state’s National Guard, indicate the state (with specific branch, if appropriate). Identify personnel as Soldiers or Airmen (or by their parent service branch) as appropriate. If the image depicts members of both branches on non-Federal duty, National Guardsmen is acceptable.

**nationality** Refer to the CIA World Factbook to determine the proper adjective for a citizen of a specific nation. (For example, a citizen of Afghanistan is an Afghan.)

NATO North Atlantic Treaty Organization. NATO is acceptable on first reference, per AP.

NFTI Use thermal imager rather than the formal name Naval Firefighter’s Thermal Imager.

**wounded warrior** Only capitalize when used in the name of a specific event or organization (e.g., *Wounded Warrior Project*).
Military unit names

Use uppercase only when referring to the name of a specific unit. Use the full name of the unit on first reference, and the acronym on all subsequent references. Include the acronym only if the term is used more than once within the caption. In that case, spell out the name and then include the acronym in parentheses. (See Table 2, Force structure, on pages 22 and 23 for the force structure of the services.)

It is the responsibility of the photographer in the field to confirm the correct name of a military unit depicted in imagery and caption.

When placing service members, ships, aircraft or units in a specific place, use the following terminology:

- A service member is stationed on or stationed at a base; with or assigned to a unit or ship. (Do not use from, as that implies hometown or place of birth.) The preferred term for a person physically located on a ship is aboard.
- A ship is based or homeported at a specific place.
- An aircraft belongs to or is assigned to a particular unit and is deployed with that unit to a certain location. It is stationed at a base or is stationed at or stationed aboard a ship; it is deployed with or operating from a ship.
- A unit is stationed at a particular base and is deployed to a certain location or deployed with a larger unit. Squadrons are stationed at Air Force bases, air bases or air stations. Navy and Marine Corps air wings and other units may be deployed with ships.

Air Force

Abbreviate Air Force units using standard acronym rules; note if it is a National Guard unit. List units from smallest to largest. In most cases, simply naming the squadron or wing will suffice. Numbered Air Forces are spelled out: Ninth Air Force.

U.S. Airmen with the 375th Security Forces Squadron (SFS) man a checkpoint in Anbar province, Iraq, Oct. 24, 2010. The 375th SFS was operating in support of Operation New Dawn.

U.S. Airmen with the 142nd Fighter Wing, Oregon Air National Guard participate in an exercise at Tyndall Air Force Base, Florida, Nov. 14, 2011.

Army

Abbreviate Army units using standard acronym rules; note if it is a National Guard unit. List units from smallest to largest. Refer to Table 2, Force structure, on pages 22 and 23.

Army units can be tricky. It does not suffice to say that a Soldier simply belongs to Alpha Company, 1st Battalion, as there are a multitude of Alpha Companies and 1st Battalions throughout the Army. Be sure to get the unit’s regimental, brigade or division affiliation; in other words, make sure a precise, unique unit name is listed.

Army: Numbered armies (e.g., First Army) can generally stand alone if the Soldiers depicted are assigned to various units within the numbered army or it’s a wide shot of a numbered army event.

Corps: Corps (e.g., XVIII Airborne Corps) can generally stand alone if the Soldiers depicted are assigned to various units within the corps or it’s a wide shot of a corps event.
**Division:** Divisions (e.g., 1st Cavalry Division) can generally stand alone if the Soldiers depicted are assigned to various units within the division or it’s a wide shot of a division event.

**Brigade/Brigade Combat Team:** Most brigades/brigade combat teams numbered lower than 5 are part of a larger division. For example, each active-duty division has a 1st brigade combat team, so be sure to list the division affiliation (e.g., 1st Brigade Combat Team, 82nd Airborne Division). There are a number of active-duty and National Guard standalone brigade combat teams, and they generally can be listed without a division. However, if it’s a National Guard unit, be sure to list the state it’s affiliated with. (e.g., 30th Heavy Brigade Combat Team, North Carolina Army National Guard.)

**Regiment:** Do not use the shorthand for these units. For example, instead of writing 1/120 Infantry, write out the full name: 1st Battalion, 120th Infantry Regiment. Always list the subordinate unit (e.g., 1st Battalion, 2nd Squadron) before the name of the regiment. While the Army generally does not use the regimental command structure like it used to, the regimental heritage is kept to maintain the history and heraldry of many units.

**Battalion/Squadron:** Most combat arms (i.e., infantry, artillery, cavalry and armor) battalions and squadrons belong to a numbered regiment, which must be listed in the caption. (e.g., the 2nd Squadron, 14th Cavalry Regiment, 2nd Brigade Combat Team, 25th Infantry Division.)

Many combat support and combat service support battalions do not have a specific regimental affiliation, but it’s best to list the brigade and/or division to which they belong. (e.g., the 82nd Brigade Support Battalion, 3rd Brigade Combat Team, 82nd Airborne Division).

**Company/Troop/Battery:** Companies starting with a letter always belong to a numbered battalion and regiment, which will be listed in the caption as well. Spell out such company names using the phonetic alphabet. (e.g., Charlie Company, 1st Battalion, 120th Infantry Regiment, 30th Brigade Combat Team, North Carolina Army National Guard.) NOTE: Some company-level units use non-standard nicknames (e.g., “Killer Company”). Be sure to get the full, proper name of the unit.

U.S. Soldiers with the 1st Brigade Combat Team (BCT), 10th Mountain Division provide security during a humanitarian mission outside of Kabul, Afghanistan, March 4, 2010. The 1st BCT was supporting Operation Enduring Freedom.

A U.S. Soldier with the 197th Special Troops Company, Utah Army National Guard gathers his parachute after a static line jump in Fairfield, Utah, March 15, 2012.

U.S. Army Sgt. John Smith, an infantryman with Charlie Company, 1st Battalion, 16th Infantry Regiment, 1st Brigade Combat Team, 1st Infantry Division, shouts an order to fellow Soldiers during a training exercise at Fort Riley, Kansas, April 7, 2013.

**Joint/combined**

The following list shows the correct format of some common joint and/or combined organizations and how to abbreviate them. According to Joint Publication 1-02, Department of Defense Dictionary of Military and Associated Terms, joint is defined as, “Connotes activities, operations, organizations, etc., in which elements of two or more Military Departments participate;” combined is defined as, “A term identifying two or more forces or agencies of two or more allies operating together.”

- Combined Joint Task Force-Horn of Africa (CJTF-HOA)
- Combined Task Force 150 (CTF 150)
- International Security Assistance Force (ISAF)
- Civil-Military Cooperation (CIMIC)

**Marine Corps**

Formats for Marine Corps units and their acronyms appear below. List units from smallest to largest.

**Aircraft wing:** The Marines are assigned to the 2nd Marine Aircraft Wing (MAW). The 2nd MAW
deployed from Marine Corps Air Station Cherry Point, North Carolina, in support of Operation New Dawn.

**Aircraft Group:** U.S. Marines with Marine Aircraft Group 11 listen to a weekend safety briefing at Marine Corps Air Station Miramar, California, June 6, 2014.

**Combat logistics battalion:** The Marines are deployed with Combat Logistics Battalion (CLB) 6 in support of Operation Enduring Freedom. CLB-6 is based at Camp Lejeune, North Carolina.

**Marine expeditionary force:** The Marines are assigned to II Marine Expeditionary Force (MEF). II MEF deployed from Camp Lejeune, North Carolina, in support of Operation New Dawn.

**Marine expeditionary unit:** The Marines are assigned to the 31st Marine Expeditionary Unit (MEU). The 31st MEU was participating in bilateral exercises while aboard the amphibious assault ship USS Essex (LHD 2).

**Regiment:** Do not use the shorthand for these units. Instead of writing 1/7 Marines, write the full name: 1st Battalion, 7th Marine Regiment.

**Regimental combat team:** The Marines are assigned to Regimental Combat Team (RCT) 1. RCT-1 deployed from Camp Pendleton, California, in support of Operation Iraqi Freedom.

**Squadron:** Spell out the full name of the squadron on first reference. Since the full names and abbreviations of squadrons do not follow normal acronym rules of assignation, include squadron abbreviations even if used only once. The Marines are assigned to Marine Transport Squadron (VMR) 1. VMR-1 assisted in the search for a downed aircraft near Jacksonville, North Carolina. See page 16 for aviation squadron abbreviations

**Special Purpose Marine Air-Ground Task Force** Note hyphenation

**Navy**

Formats for Navy units and their acronyms appear below. List units from smallest to largest, where applicable.

- construction battalion center: CBC
- naval air facility: NAF
- naval air station: NAS
- naval amphibious base: NAB
- naval facility: NAVFAC
- naval station: NAVSTA
- naval weapons station: NWS
- commander fleet activities: CFA

**Activities:** Spell out the full name of the naval activity on first reference and capitalize only when part of a proper name. For example: Naval Station Rota, Spain. On second reference, abbreviate as follows: NAVSTA Rota.

**Detachment:** Do not abbreviate. The Sailors are assigned to Detachment 5, Explosive Ordnance Disposal Mobile Unit 2.

**Fleet:** When referring to a numbered fleet, always use numerals and precede with U.S. For example: U.S. 7th Fleet.

**Naval mobile construction battalion:** On first reference, spell out and use a numeral. Use the acronym on second reference. U.S. Sailors with Naval Mobile Construction Battalion (NMCB) 1 construct a school in Honduras. NMCB-1 is participating in exercise New Horizons.

**Ship:** List the type of ship (e.g., destroyer, aircraft carrier), full name of the ship and hull number (in parentheses) for each ship on first reference. On second reference, drop the ship type, USS and the hull number. Use the definite article the before the ship’s name. Do not use the personal pronouns she or her. All ship names appear in regular type, not in all caps. See hull numbers and ship names.

"U.S. Sailors man the rails as the aircraft carrier USS George Washington (CVN 73) departs Yokosuka, Japan, June 27, 2011. The George Washington was embarking on a six-month deployment."
**Current ship types:** aircraft carrier, guided-missile destroyer, guided-missile cruiser, littoral combat ship, mine countermeasures, submarine, amphibious assault ship, amphibious transport dock, dock landing ship, coastal patrol, amphibious command, afloat forward staging base, mobile landing platform.

**Squadron:** Spell out the full name of a squadron on first reference. Include the abbreviation whether or not the squadron appears again in the caption. See page 19 for aviation squadron abbreviations.

U.S. Navy Strike Fighter Squadron (VFA) 97 was deployed aboard the aircraft carrier USS Carl Vinson (CVN 70). During the deployment, VFA-97 maintained a perfect safety record.

**Coast Guard**

Other than Coast Guard districts, most units are named geographically. If the location is not a major city, such as Boston or Los Angeles, use the state as well (refer to AP’s “datelines” entry).

**Area:** The Coast Guard is divided into two areas:

- The Atlantic Area includes the First, Fifth, Seventh, Eighth and Ninth Coast Guard Districts.
- The Pacific Area includes the Eleventh, Thirteenth, Fourteenth and Seventeenth Coast Guard Districts.

**District:** There are nine numbered districts in the Coast Guard. Spell out the district number when referring to a specific district, such as the Fifth Coast Guard District.

**Sector:** A district is comprised of several geographical sectors, which are named for a region or city, such as Sector Hampton Roads or Sector Guam.

**Station, air station:** Stations and air stations are identified by a geographical location, such as Coast Guard Station Monterey or Coast Guard Air Station Cape Cod. Only capitalize when used with a geographical name.

**Unit names:** Specialized units are given geographical names as well, such as Aids to Navigation Team New York or Marine Safety Unit Port Arthur. Only capitalize when used with a geographical name. Abbreviate only on second and subsequent reference, such as MSU Port Arthur or the MSU.

**Boats:** Coast Guard vessels under 65 feet in length are considered boats. Boats are not given individual names or hull numbers. Identify type of boat pictured whenever possible. Do not capitalize the boat type.

A U.S. Coast Guard response boat-medium approaches a dock at Coast Guard Station St. Petersburg, Florida, March 5, 2017.

**Current boat types:** motor life boat, response boat-medium, response boat-small, law enforcement special purpose craft, long range interceptor, aids to navigation boat, transportable port security boat, special purpose craft airboat.

**Cutters:** Coast Guard vessels longer than 65 feet are called cutters, and are given individual names and hull numbers. Identify cutters by their type, name and hull number. Do not use cutter lengths.

**Current cutter types:** national security cutter, high endurance cutter, medium endurance cutter, fast response cutter, icebreaker, icebreaking tug, seagoing buoy tender, coastal buoy tender, inland buoy tender, river buoy tender, inland construction tender, patrol boat, coastal patrol boat, small harbor tug.

Table 2, Force structure

The following table provides the basic force structure of the five services, listing units from smallest to largest groupings of service members. Other organizational groupings do occur within each Service. This table is designed only to act as a guide to help the writer list unit designations within a caption. Only capitalize elements (e.g., brigade, platoon, wing, etc.) when used as part of a unit name.

U.S. Navy

The Navy does not list unit designations in the same way as the other Services. While a Sailor may be assigned to a ship, which belongs to a squadron, task force or carrier strike group, and in turn falls under a fleet, not all of those levels need to be listed within a caption. If a Sailor is part of a ship-based aviation unit, be sure to list it.

Identify the ship or onshore unit to which a Sailor is assigned. Also identify lower-level unit demarcations, such as squadrons or detachments.

Identify the strike group to which a ship is assigned only if it is currently deployed with the group.

U.S. Coast Guard

It’s rarely necessary to identify a Coast Guard unit’s higher echelons when listing a specific unit in a caption. Only identify larger or superior units if it’s relevant to the caption being written.

U.S. Coast Guard Petty Officer 1st Class Joe Morgan, a pursuit coxswain assigned to Coast Guard Station Monterey, California, operates a response boat-small in Monterey Bay June 7, 2017.

U.S. Coast Guard Rear Adm. John Jones relieves Rear Adm. Sam Smith as commander of the Ninth Coast Guard District during a ceremony in Cleveland July 1, 2017. Vice Adm. Sally Simpson, the commander of Coast Guard Atlantic Area, under which the Ninth District falls, presided over the ceremony.

Chapter 3
Captioning still and motion imagery

The ABCs

Well-written, informative and useful captions begin with the submitter and his/her unit.

NOTE: While most of this chapter deals with still captions, the basic rules of style and content apply to motion captions as well. The descriptive information in motion captions will necessarily be broader and less specific, since the caption must describe more than a single image. Provide a general description of the units and specific subjects, equipment used, the event taking place, location and date(s).

To write an effective caption, remember the ABCs of captioning: accuracy, brevity and clarity.

Accuracy. Ensure every piece of information within the caption is accurate and complete. This also includes ensuring the captions are grammatically and stylistically accurate and that they adhere to the guidance contained in this guide and the Associated Press Stylebook. An accurate caption helps ensure an image is newsworthy, is of historical value and can be more easily retrieved from databases.

Brevity. When writing a caption, be certain every word is necessary to tell the story of the image. The caption should describe precisely what is seen in the image. Captions must convey a great deal of information in a few short sentences, so they must be written concisely to maximize their effectiveness. Do not use 15 words where five will do.

Clarity. To be understood by the end user, a caption must be clear in both intent and expression. Select language to make certain the reader will understand what is happening in the image. Remember that the audience for DoD imagery is global. Construct captions that can be understood by a nonmilitary reader.

The 5 Ws
When gathering information to include in a caption, keep the following questions in mind: who, what, when, where and why. All questions must be answered to accurately communicate the story of a still image or video clip.

Who
Who or what is the subject of the image?

• If the subject of a sentence is a person or persons, provide the rank, first and last name, title and military unit for each person.

• List units from smallest to largest. (e.g., U.S. Marines assigned to Kilo Company, 3rd Battalion, 1st Marine Regiment, 1st Marine Division clean weapons at Camp Pendleton, California, June 7, 2012.)

• When identifying named service members, include the name of the Service to which he or she belongs. (e.g., U.S. Army, U.S. Navy, U.S. Air Force, U.S. Marine Corps, U.S. Coast Guard)

• If it’s a group of service members or an unidentified person, use the appropriate singular or collective noun associating them with their particular branch of service (e.g., Soldier/Soldiers, Sailor/Sailors, Airman/Airmen, Marine/Marines, Coast Guardsman/Guardsmen). NOTE: Do not use the name of the Service in conjunction with the associated noun, such as “U.S. Army Soldier” or “U.S. Marine Corps Marine.”

• Every effort should be made to identify the subject of a photo. People appearing in the background need not be identified unless they are essential to the story of the image.

If the subject of the image is an object, provide the equipment name and model, name and ship hull number, or name and model of the aircraft or vehicle. Include both the name of the object (e.g., C-17 Globemaster III) as
well as what kind of object it is (e.g., aircraft).

A U.S. Air Force C-17 Globemaster III aircraft taxis before takeoff.
The aircraft carrier USS Dwight D. Eisenhower (CVN 69) gets underway.

Note: Do not include a hyphen between the letters and numbers in the hull number.

To find the proper way to list a particular vehicle, weapon system or aircraft, refer to fact sheets available on Service-specific websites (see Chapter 9). Also, see the list of selected vehicles in Table 4, on page 24, and the list of selected weapons in Table 3, on page 23.

**What** Describe the action captured by the imagery.

Use active voice when describing the action. When writing in active voice, the subject is doing something, while in passive voice, something is being done to the subject. To change from active to passive voice, make the object of the sentence (person or thing acting on the subject) the subject and vice versa.

When describing the what, do not over-describe the action; let the image speak as well. For example, look at the following image and read the two sample captions.

In the first example, the what is “checks the status of an entry control point using radio communications.” In the second, it is simply “checks the status of an entry control point.” Looking again at the image, nothing is lost by using the shorter description of the second caption. The information given in the first caption is apparent in the image itself.

**Active vs. Passive Voice**

*Active:* U.S. Soldiers destroy confiscated ordnance.

*Passive:* Confiscated ordnance is destroyed by U.S. Soldiers.

**Incorrect:** U.S. Air Force Staff Sgt. James Foster, right, with the 736th Security Forces Squadron, checks the status of an entry control point using radio communications at Williamson Airfield, Shoalwater Bay Training Area in Queensland, Australia, July 22, 2013.

**Correct:** U.S. Air Force Staff Sgt. James Foster, right, with the 736th Security Forces Squadron, checks the status of an entry control point at the Shoalwater Bay Training Area in Queensland, Australia, July 22, 2013.

**Style Check: Dates**

- Use month, day, year format.
- Do not include on before the date.
- Do not use the day of the week.
- Do not use datelines.

**When** Provide the date and, if pertinent, the time of day when the image was captured. Include the date within the caption. Do not use datelines, which are headers placed before the start of the caption, often containing the date and location of the image.

Use the following format: Aug. 21, 2011. Spell out months March through July and abbreviate months August through February.

When writing just a month and year with no day, do not abbreviate the month: *Feb. 27, 2011*, but *February 2011*.

**Where** Provide the geographic location as well as the name of the base, facility or organization, if applicable. Consult the Associated Press Stylebook entry on datelines to determine if a city stands alone in captions.
• If there is no city, give a region or general area (e.g., near the Syrian border or off the coast of Southern California).

• If the image was captured on a ship, provide the ship name as well as where it is moored or underway. For example: off the coast of ... or underway in the Pacific Ocean.

• If it is an undisclosed location, state that within the caption and metadata. Try to add an identifiable geographic region, such as in Southwest Asia or in the U.S. 7th Fleet area of responsibility.

• Do not use the words “here” or “at sea” in place of a location or a geographical region in a caption.

Spell out all state names, per Associated Press guidance.

**Why** Explain the purpose of the event, exercise or operation depicted in the image. This gives context to the image and answers the question as to why the image matters. The explanation should be brief, in most cases no longer than one sentence. See sample captions on page 30.

**Constructing a caption**

The first sentence contains the who, what, when and where and is always written in the present tense using active voice. A caption describes the moment the image is captured, not what came before or after, so the first sentence will be written as if from that moment.

Subsequent sentences include the background information (the why?) and should almost always be written in past tense. It explains why the image is significant and provides context. This is where you provide information explaining the significance of the action in the image.

**Example:**

U.S. Air Force Tech. Sgt. John Smith demonstrates proper CPR techniques during his unit’s safety day at MacDill Air Force Base, Florida, July 5, 2011. Smith’s unit was training in advanced first aid techniques in preparation for a deployment.

Examine the following image and sample caption:

U.S. Marines with the 31st Marine Expeditionary Unit board Landing Craft Utility 1627 in the well deck of the forward-deployed amphibious dock landing ship USS Germantown (LSD 42) Feb. 10, 2012, off the coast of Thailand. The Germantown was underway in support of Cobra Gold 2012. Cobra Gold is a regularly scheduled joint/combined exercise designed to ensure regional peace and strengthen the ability of the Royal Thai armed forces to defend Thailand or respond to regional contingencies. (U.S. Navy photo by Mass Communication Specialist 1st Class Johnie Hickmon)

In the caption, the background sentences describe why the Germantown and the 31st Marine Expeditionary Unit were off the coast of Thailand (for exercise Cobra Gold). While this is important information, it does not give background information on the action in the image, which is Marines boarding a landing craft utility. A more appropriate second sentence would explain why the Marines were boarding the craft. Presuming we know why, the caption could read:

U.S. Marines with the 31st Marine Expeditionary Unit board Landing Craft Utility 1627 in the well deck of the forward-deployed amphibious dock landing ship USS Germantown (LSD 42) Feb. 10, 2012, off the coast of Thailand. The Marines were preparing to go ashore in Thailand as part of exercise Cobra Gold 2012. (U.S. Navy photo by Mass Communication Specialist 1st Class Johnie Hickmon)
Additional rules of construction

Define all acronyms on first use within the caption. Spell out the term, and then place the acronym in parentheses. Use only the acronym on second use.

• Do not use acronyms for terms used only once within the caption.
  • Do not use apostrophes when using a plural acronym. For example: MREs, not MRE’s; F-15s, not F-15’s.
  • Refer to the Department of Defense Dictionary of Military and Associated Terms for official definitions of abbreviations and acronyms (see Chapter 9, Additional resources, on page 52). Acronyms need not appear in the DoD dictionary to be used in a caption.

Avoid the use of jargon. Explain terms and practices that are not commonly known outside of military circles. Remember to write for a nonmilitary audience. For example, do not use shorthand references to military units unless they have been previously defined within the caption.

Do not editorialize. Stick to the facts as presented by the image and gathered at the scene. In the following example, the first caption contains editorializing.

ID by placement. When identifying people in an image, use the rule of three; provide the full name and rank and/or title of every person when there are three or fewer people in the image. It is not necessary to individually identify everyone if there are four or more people present, although there may be some cases (such as with high-level officials) in which that would be appropriate.

No quotes. Do not quote people within the body of a caption. Only use quotations in a press release, feature story or news article.

Photographer’s credit

Include the photographer’s credit at the end of the caption. See examples.

NOTE: This is where ‘photo’ or ‘photo illustration’ is indicated. See Chapter 8, DoD Visual Information ethics, for more information.

If the photographer is a member of the Army National Guard or Air National Guard, indicate it in the credit line, but do not use the state or territory name: (U.S. Army National Guard photo by Pfc. Bob Smith)

If the photographer is from a non-U.S. service, credit it as a DoD photo, listing the photographer’s rank, name and service affiliation.

DIMOC has created a new repository of keywords and other metadata, called a controlled vocabulary, which can be accessed through dimoc.mil. The purpose of the controlled vocabulary is to more completely standardize keywords and certain sets of metadata in order to make images archived by DIMOC more easily accessible. The Controlled Vocabulary will be integrated into DVIDS and other digital imagery management systems in the future.

Use the 5 Ws to determine the most prominent elements within the image or video. Often, the who, what and where will be appropriate choices.

When selecting keywords for imagery, ask the following questions and choose keywords based on the answers:

- What is the message of the image or video?
- What person or object has the biggest impact?
- Why would someone want the image or video?
- What other major elements or concepts appear in the image or video but not in the caption?

Choose several keywords (no more than six) that best describe the visual content of the image or video. Using appropriate keywords will ensure that imagery is more searchable, making it more readily available to the end user. Do not use photographer’s names or units, locations, or anything irrelevant to what is shown in the image itself. Separate keywords with commas.

**Example 1.**

In this example, patrol is the primary action of the image. Therefore Patrol is a keyword. However, the concept of the image is training. Training is also a keyword. Inserting Patrol as a keyword may appear redundant, since the word appears in the caption, but it allows for broader search capability and image accessibility if it is included.

Keywords for Example 1: USMC, Marine, 3rd AAB, M4 carbine, Training

**Example 2.**

A search looks for each individual word in a keyword for a match, therefore the keyword for an image of an F/A-18E Super Hornet aircraft needs to be its full technical name: F/A-18E Super Hornet. This ensures that no matter the terms the user enters into a search (i.e., 18E, Hornet) the search will return results with those words or phrases.

A U.S. Marine with the 3rd Assault Amphibian Battalion patrols an improvised explosive device training trail during jungle warfare training in Colombia Aug. 10, 2010. The unit was deployed in support of Partnership of the Americas/Southern Exchange, a combined amphibious exercise with maritime forces from 10 nations. (U.S. Marine Corps photo by Lance Cpl. Ammon W. Carter)
in the keywords. It is important to also include *aircraft*, otherwise a user searching simply for *aircraft* will not return all the appropriate images.

The keywords for Example 2: *F/A-18E Super Hornet, F-22 Raptor, Aircraft*

**Standard format for keywords**

<table>
<thead>
<tr>
<th>Correct</th>
<th>Incorrect</th>
</tr>
</thead>
<tbody>
<tr>
<td>F/A-18E Super Hornet, Aircraft</td>
<td>F/A-18E, Super, Hornet, Aircraft</td>
</tr>
<tr>
<td>M1A1 Abrams tank</td>
<td>M1A1, Abrams, Tank</td>
</tr>
<tr>
<td>M14 Enhanced Battle Rifle</td>
<td>M14, Enhanced, Battle, Rifle</td>
</tr>
</tbody>
</table>

1. Treat the keyword field similarly to the caption field, proper spelling and capitalization is important.
   - For example: *M1A1 Abrams tank, USAID, Secretary of Defense*
2. Write all technical names as directed by the U.S. Military Services’ fact files and yearbooks.
3. Keywords are separated by **commas** (the final keyword does not require a comma).
   - For example: *M1A1 Abrams tank, F/A-18E Super Hornet, Aircraft*
4. Keywords may be phrases or full names and in these instances should not be separated.
5. The Photographer’s Service is a keyword, but only in its acronym/abbreviated form.
   - For example: *USMC, USA, USN, USAF, USCG, RAF*
6. Words that are NEVER keywords:
   - Photographer’s name (in any variation), unit or VISION ID
   - Release status
   - Classification status
   - Use of the image (i.e., publication)

**Guidelines for selecting keywords**

1. Consider and select from the broad categories list first. See the sample categories in Sample Keywords on page 34.
2. What is the concept of the image?
   - Don’t forget to add the theme/message of the image.
3. What is in the image?
   - Vehicles? Weapons?
   - Technical names for all types of vehicles (e.g., aircraft, ships, tanks, etc.) and all weaponry are keywords.
   - Ship names (including the hull number), classes and types are keywords.
     - For example: *USS Dwight D. Eisenhower (CVN 69), Nimitz-class, Aircraft carrier*
4. Who is in the image?
   - Titles and occupation fields (not ranks) are keywords. This applies only to U.S. personnel.
     - For example: *Human intelligence collector, Drill instructor, Logistics Specialist, Ship’s Boatswain, Platoon leader, Designated marksman, Infantryman, Rifleman*
   - There are four individuals whose title and name will always be keywords. These four people are the President, Vice President, Secretary of Defense and the Chairman of the Joint Chiefs of Staff.
5. Does the image represent an event?
   - Is the event an operation or an exercise?
   - If so, the name of either the Operation/Exercise is not a keyword. These names are to be entered in the Operation/Exercise metadata field.
   - If not, then the event’s full name is a keyword.
     » For example: 11th Annual Air Force Marathon

6. Are there phrases, units, etc., that have acronyms/abbreviations that are not written in the caption? If so, the acronyms/abbreviations are keywords.
   » For example: International Security Assistance Force is written in the caption, but the acronym is not. ISAF is then a keyword.
   » For example: The image is from Operation Enduring Freedom. OEF is then a keyword.
   » For example: 6th Squadron, 1st Cavalry Regiment, 1st Brigade Combat Team, 1st Armored Division is used in the caption once. Therefore, 6-1 CAV, 1st AD are keywords.
Sample Keywords

The following list contains numerous examples of keywords used in imagery metadata. By no means is this a comprehensive list, but many common concepts, activities, events, people, weapons, ships, vehicles and other equipment are listed here. *If an item has words in parentheses next to it, those words are meant to describe what the keyword means, and are not part of the keyword itself.*

Still and motion imagery metadata

The style guidance contained in this publication also applies to other metadata associated with still and motion images. It is important to ensure this information is both complete and accurate to ensure every image is as accessible as possible and of the utmost value to the end user.

Excepting abbreviations, all entries should be in regular text, not in all capital letters. The tables on pages 39-41 list the metadata fields and their corresponding names and placement in common imagery management software programs. These guidelines apply if you are using a video editing program that allows for the modification of video metadata.

Field two, the seventh character, represents the Service of the photographer.
- A: Army, uniformed member, civilian employee or contract employee
- D: Department of Defense, uniformed member, civilian employee, or contract employee of the Department of Defense not falling into one of the other categories
- F: Air Force, uniformed member, civilian employee or contract employee
- G: Coast Guard, uniformed member, civilian employee or contract employee
- H: Department of Homeland Security, not including Coast Guard
- M: Marine Corps, uniformed member, civilian employee or contract employee

- O: Any person not falling into another category, including foreign nationals
- S: Department of State
- Z: National Guard (either branch), uniformed member or civilian employee, even when on federal active-duty status or deployed overseas

Field three is either the individual photographer’s VISION ID or a unit’s DVIAN (see boxes below).

Field four, the final four digits, are used to create a unique VIRIN for each photo or video file uploaded. *NOTE: The number of digits in field four was increased from three digits to four digits by Change 1 to DoDI 5040.02, dated July 8, 2016. The purpose of the extra digit is to provide a content organizing function when VI professionals capture VI in multiple jobs, locations, or scenes on the same day.*

The first digit is used to indicate separate projects or assignments on a single day, starting with 1 and continuing as necessary to 9. The second through fourth digits are used to organize specific shots or scenes resulting from the separate projects in their approximate order. No two shots or scenes from the same day will have the same final four digits.

Field five, to be used by photographers working for a foreign government, will use the two-letter ISO 3166 Alpha-2 code used to identify their respective government. For example, a Belgian government photographer who submits an image to a DoD organization will use a VIRIN such as 160323-O-(VISION ID)-1001-BE.

The ISO 3166 Alpha-2 codes can be found at https://www.iso.org/obp/ui/#search/code

**Date Shot**

Enter the date the image was captured (*not the date it was submitted to DVIDS or DIMOC, if different from the date it was shot*). The date must match what is reflected in the VIRIN and the caption. *Note: Ensure all cameras are set to the correct local date and time before conducting a shoot.*

**Operation/Exercise**

This field should only be filled out with the name of a formal operation or exercise. Operations, for example, include *Inherent Resolve* and *Freedom's Sentinel*; examples of exercises include *Balikatan*, *Cobra Gold 2015* or *Anakonda 16*. Do not include the words *Operation or Exercise* in this field. If the image(s) are not part of a named exercise or operation, leave this field blank.

**Headline (optional)**

This is an optional field found in the DVIDS submission portal, and is intended to briefly describe a specific event associated with a larger news story or series of images, for example, “82nd Airborne Division change of command,” “USS America (LHA 6) commissioning” or “35th Fighter Wing Airmen train in survival skills.”

**Caption**

Ensure the caption is complete and adheres to the standards in Chapter 3. The date in the caption must match the Date Shot and VIRIN fields. Include the photographer credit line at the end of the caption.

**Keywords**

A keyword is a word or phrase that signifies the meaning or main ideas of an image. The primary function of keywords is to improve accessibility of the imagery. *Limit keywords to no more than six.* Do not include the photographer’s name, locations or anything irrelevant to what is in the image.

DIMOC has established a controlled vocabulary for keywords that covers such topics as equipment, career fields, activities, events, ships, etc. The list, which will grow and evolve with new terminology, is managed at DIMOC and can be viewed at the website listed above under “Department of Defense Keywords.” *See Chapter 5 for more information on Keywords.*

**Command Shown**

Enter the geographical combatant command where the photo was taken (*USPACOM, USNORTHCOM, USEUCOM, USEUCOM, USCENTCOM, USAFRICOM, USSOUTHCOM*). For imagery from Combined Joint Task Force-Operation Inherent Resolve or relating to anti-ISIS operations, use *CJTF-OIR*; for imagery under Combined Joint Task Force-Horn of Africa, use *CJTF-HOA*.

**Service Shown**

Select one of the choices below for the Service depicted in the image, based on the main subject or
subjects of the image. This is not always the same as the service of the photographer. This information is essential for tracking imagery in the joint environment.

United States Army; United States Air Force; United States Navy; United States Marine Corps; United States Coast Guard; Army National Guard; Air National Guard; Coalition; DoD Civilian; Multiservice; Foreign military; Other

Base/Location
Enter the city, base, ship, installation or other specific location at which the image was captured, not the location to which the photographer is assigned and/or deployed. For example, if the photographer is assigned to Fort Bragg, North Carolina, but the image was taken in nearby Fayetteville, enter Fayetteville in this field. If there is no specific-named location, filling out the Country/Area field will suffice.

State/Province
Enter the U.S. state or foreign province (or other subdivision) in which the image was captured, if applicable.

Country/Area
Enter the country, area or major body of water in which the image was captured. Areas will usually be bodies of water such as the Persian Gulf or regions such as the Arctic Circle. Should it be an undisclosed location, enter that information here as well. See the online controlled vocabulary for a list of acceptable countries and bodies of water. If the location of the image is withheld, enter undisclosed location here.

Release Status
The status will either be Released or For Official Use Only (FOUO). Remember, only Released imagery may be submitted through DVIDS.

FOUO: If an image is FOUO, it must be submitted directly to DIMOC, and cannot be posted on any form of social media until it is fully released. See Chapter 6 for instructions. FOUO imagery must include a justification in the Release Authority field.

Secret: If an image is Classified Secret, it must be submitted directly to DIMOC via SIPR. See Chapter 6 for instructions. Imagery classified Secret must include a justification in the Release Authority field.

Release Authority
Enter the name, duty position, phone number and/or email address of a person authorized in writing by his or her command to release images or deem them FOUO.

In the case of FOUO or Secret imagery, the release authority must include justification for designating an image as such (see table at right).

The justifications should come from exemptions 2 through 9 the Freedom Of Information Act (FOIA) exemptions list on page 38. Exemption 1 only applies to classified imagery.

# Metadata cross references

The following provides a cross reference for the field names in four commonly used captioning software programs. Captioning for video, which provides instructions on what to include in each field, uses the MediaGrid field names as subchapter titles. If you have no captioning software, include this information in a Word file.

Chapter 6
Submitting imagery to DIMOC

DIMOC is the official records manager for DoD visual information (VI), ensuring DoD visual history is preserved through regular transfers of VI to the National Archives and Records Administration.

Before selected images are submitted to DIMOC using one of the methods described below, photographers, videographers and their respective units have the primary responsibility for ensuring each submitted image meets the captioning and metadata standards described elsewhere in this guide.

Per DoD Instruction 5040.02, all imagery, with associated captions and metadata, must be submitted to DIMOC using one of the methods described below, regardless of release status. This includes images posted to DoD and non-DoD web pages and social media outlets such as Twitter, Facebook, Flickr and Instagram.

While many military commands post selected imagery on social media sites such as the ones described above, posting imagery on social media is not a substitute for sending imagery to DIMOC.

Submit only high-resolution images using the methods below; low-resolution imagery is of little historical value.

Imagery used in social media

DoD imagery used in social media platforms (Facebook, Twitter, Instagram, Flickr, etc.) is considered a permanent, released DoD record. The original, hi-res version of all images and video used on social media must also be sent to DVIDS for archiving.

DVIDS (Released only)

Submitting to the Defense Video & Imagery Distribution System (DVIDS) is by far the most common and most expedient way of submitting unclassified, released imagery. DVIDS forwards a copy of all received images directly to DIMOC 180 days after receiving it; the original version remains in DVIDS.

DVIDS accepts only properly released, public domain imagery. Do not send unreleased, copyrighted or For Official Use Only (FOUO) files.

In order to submit imagery to DVIDS, you must have an account with DVIDS. This can be accomplished by visiting https://www.dvidshub.net and clicking on Register. Be sure to choose your organization or unit and choose a Priority of Effort, which can be tailored for your organization’s marketing needs. Once you are registered, find the DVIDS Direct tab at the top of the DVIDS page to begin the submissions process.

• Up to 2GB of imagery can be submitted through the web interface in a single session.
  • Ensure each imagery file is populated with a caption and the appropriate metadata.
  • Also complete the DVIDS metadata screen for each asset.
• DVIDS also offers FileZilla to facilitate FTP/SFTP submissions. Information can be found at the DVIDS Direct page.
• DVIDS customer service can be reached at (877) 384-3724.
Email or AMRDEC SAFE direct to DIMOC (Released and FOUO)

If you can’t access or transmit to DVIDS, or you have FOUO imagery to send to DIMOC, please call the DIMOC Joint Combat Camera Center (JCCC) at (301) 222-6273 or DSN (312) 733-4273. The JCCC staff will issue specific instructions for transmitting the images via regular email or AMRDEC SAFE, which allows for the secure transmission of up to 25 items or 2GB of data for download elsewhere.

FOUO imagery direct to DIMOC

For Official Use Only (unclassified, but not released for public consumption) imagery can be transmitted to DIMOC via direct email to jccc@mail.mil (under 10 MB), or via AMRDEC to jccc@mail.mil (up to 2GB). Contact the Joint Combat Camera Center for assistance. **FOUO imagery should be transmitted to the JCCC, as it can be used in DoD internal briefings.** *(Note: The direct web uploader at defenseimagery.mil was closed in August 2017.)*

Classified (Secret) imagery direct to DIMOC

Still and video imagery classified up to Secret can be transmitted via SIPR for storage and internal (DoD) use until the imagery is declassified and released. All classified imagery must be marked and safeguarded in accordance with the requirements of Volumes 2 and 3 of DoDM 5200.01. Contact the Joint Combat Camera Center at the phone or email listed on page 41.

Physical and non-current visual information

DIMOC regularly receives physical (or ‘legacy’) visual information records or media, to be digitized, preserved and included in the DoD’s permanent VI collection. Legacy VI includes all forms of media, such as film, slides, prints, tapes, negatives and audio, as well as unsubmitted digital VI stored on hard drives and other electronic media.

In many instances, when units or commands relocate or are inactivated, or when facilities are closed, large amounts of legacy VI are discovered in storage areas. These media items or records are DoD property, and must be handled appropriately in accordance with Federal law and DoD regulations. If your unit or command is in possession of such content, please consult with the DIMOC Archivists for instructions on the handling and disposition of those records by following the link in the box above.

Physical assets must be shipped to DIMOC for further processing and archiving. Please do not ship physical assets without contacting DIMOC first. **Do not scan physical media on your own or send it to DVIDS or JCCC.**
Chapter 7
Grammar review

Good captions are difficult to write without a solid foundation in the principles that govern sentence construction. The following review of basic grammar rules will help writers and editors produce clear, effective captions.

Sentence structure

A sentence is a group of words that contains a subject and a predicate. It is a complete thought that can stand alone. The subject is a noun or noun phrase, and is what the sentence is about. In captioning parlance, it is the “who.” The predicate is what is being written about the subject. This includes the verb, or action, of the sentence as well as other people or objects that the subject acts upon. When writing any sentence, begin with these building blocks: subject-verb-object. Place all supplementary information around this fundamental structure.

U.S. Soldiers patrol a neighborhood.

In the above sentence, the subject is “U.S. Soldiers” and the predicate contains both the action of the sentence, “patrol,” and the object of the action, “a neighborhood.”

Avoid sentence fragments. A sentence fragment is an incomplete sentence; it is usually either missing a subject or a verb or is not a complete thought. Fragments usually occur when captioning images that at first glance appear to show no action (e.g., images of equipment, geographic locations or local color). Assign an action, the “what,” to the image to ensure a complete sentence.

| Fragment: | The aircraft carrier USS Ronald Reagan (CVN 76) during a training exercise in the Pacific Ocean June 22, 2011. |
| Sentence: | The aircraft carrier USS Ronald Reagan (CVN 76) participates in a training exercise in the Pacific Ocean June 22, 2011. |

Avoid run-on sentences. A run-on sentence contains two or more independent clauses (word groups that can stand alone as a sentence) that are joined without either a semicolon or a comma and a linking word.

| Run-on: | The Sailors returned home from a six-month deployment and they celebrated when their ship moored pierside. |
| Fix the sentence with a comma: | • The Sailors returned home from a six-month deployment, and they celebrated when their ship moored pierside. |

Do not start a sentence with a numeral. The only exception to this rule is when starting a sentence with a year; however, avoid this when possible. Usually it can be fixed by adding a word at the start of the sentence.

| Incorrect: | 1st Marine Division is engaged in operations in the Anbar province of Iraq. |
| Correct: | The 1st Marine Division is engaged in operations in the Anbar province of Iraq. |
**Punctuation**

*Apostrophes* Use apostrophes to indicate possession or in contractions; do not use to indicate a noun is plural.

| Incorrect: unexploded mortar’s outside Kabul |
| Correct plural: unexploded mortars outside Kabul |
| Correct possessive: unexploded mortars’ disposal date |

With acronyms, use an apostrophe only to indicate a possessive. Add a lowercase s to make an acronym plural.

| Plural: The COs met to discuss the mission. |
| Possessive: At the CO’s request, they discussed the mission. |

Remember that *its* indicates possession, while *it’s* is a contraction of *it is*.

**Commas in a series** The appropriate use of commas makes it easier to read a sentence. Comma placement is determined partially by grammar rules and partially through judgment.

Use commas to separate each element in a series. For example: *The flag is red, white and blue.* Use a comma before the conjunction (known as the serial comma) only when necessary to avoid confusion, such as in the following example: *The vessel performs utility boat functions such as submarine support, moving barges and floats, and personnel transfers.*

If any of the elements in a series contain commas, use semicolons instead. For example: *Secretary of Defense Chuck Hagel; U.S. Army Gen. Martin E. Dempsey, the chairman of the Joint Chiefs of Staff; and Secretary of State John Kerry met to discuss defense policy.*

**Commas and clauses** When joining two word groups that can stand alone as separate sentences, use a comma before a coordinating conjunction or use a semicolon with no conjunction. Do not use a comma if one of the clauses is dependent (does not stand alone as a complete sentence).

- The building is finished, but it has no furniture.
- The building is finished; it has no furniture.
- The building is finished but has no furniture.

Use a comma after introductory clauses or phrases. Such clauses usually tell when, where, why or how the main action of the sentence occurs. For example: *After sharing a meal, the Airmen will resume training.*

Not every clause that appears to be independent requires a comma. For example: *Jake does not realize that his injury is serious and that he will have to undergo therapy to get better.*

Note that a ship’s name is not a clause; do not separate it from the sentence with commas.

**Commas and adjectives** Separate coordinate adjectives with commas (coordinate adjectives modify the noun in the same way). For example: *She was a strong, loyal, well-trained Marine.* Each adjective describes the Marine.

Do not separate cumulative adjectives (cumulative adjectives must stay in order to make sense). For example: *Three large brown camels moved toward the convoy.*

How to tell the difference? Put the word “and” between each adjective and reverse the order of the adjectives. If the sentence still makes sense, use commas.
**That/which** Use *that* for essential information; do not separate with a comma. Use *which* for nonessential elements; use commas to set off the clause. For example:

```
The Airmen needed a uniform that was wash and wear.
The Airmen needed new boots, which are expensive.
```

How to tell the difference? If you were to remove a restrictive element from a sentence, it would significantly change its meaning. Use this rule to know which to use. In the first example above, the fact that the uniform must be wash and wear is essential to understanding the sentence. In the second, the fact that the boots are expensive is additional information; the essence of the sentence is that the Airmen need new boots.

**Commas and titles** Titles and other identifying adjectives listed after a name should be separated with commas; those listed before the name are adjectives and do not require commas.

```
Chief of Staff of the Army Gen. Raymond T. Odierno visits with troops.
Gen. Raymond T. Odierno, the chief of staff of the Army, visits with troops.
```

**Commas and dates** Do not automatically separate the date from the rest of the sentence. Comma usage is determined by what precedes the date (e.g., a state or a country). Remember to put a comma after the year in a complete date unless it ends the sentence.

```
The aircraft carrier USS George Washington (CVN 73) conducts flight operations in the Pacific Ocean June 7, 2014.
```

**Commas and quantity** Use a comma in numbers showing quantity (e.g., 1,200 troops, but 1200 hours).

**Hyphens** Use a hyphen to connect compound adjectives. A compound adjective is two terms that together act as one descriptor for a noun.

Note that the examples to the right are hyphenated only when used as compound adjectives. For example: *The troops were forward deployed.*

Use a hyphen to join some prefixes/suffixes and root words, such as anti-terrorism, anti-aircraft or DoD-wide.

If a unit number follows its unabbreviated name, then the name of that unit will generally be hyphenated in its abbreviated form. Some examples of unit types that are hyphenated in their abbreviated forms:

- Navy and Marine Corps squadrons (VAW-77, HMH-464, etc.)
- Marine Corps combat logistics battalions (CLB-6, etc.)
- Naval mobile construction battalions (NMCB-1, etc.)
- Navy explosive ordnance mobile units (EODMU-1, etc.)

**Periods** Use a period when abbreviating military titles. For example: *Tech. Sgt. James Cooper.* Refer to Table 1, Military rank abbreviations, on pages 20 and 21 for more information. When typing copy, use only one space after the period at the end of the sentence.
Mechanics

**Prefixes** Refer to *The Associated Press Stylebook* or *Webster’s New World College Dictionary* for guidance on whether or not to hyphenate a word with a prefix. This section provides guidance for terms that commonly appear in DoD captions.

In most cases, prefixes join with the root word without a hyphen (see box to the right).

Hyphenate words with the prefix *self-*. For example: *self-controlled, self-taught, self-defense.*

<table>
<thead>
<tr>
<th>Common words with prefixes that do not take hyphens</th>
</tr>
</thead>
<tbody>
<tr>
<td>resupply</td>
</tr>
<tr>
<td>noncommissioned</td>
</tr>
<tr>
<td>multinational</td>
</tr>
<tr>
<td>preflight</td>
</tr>
<tr>
<td>counterterrorism</td>
</tr>
</tbody>
</table>

In most cases, hyphenate if the prefix ends in a vowel and the root word begins with a vowel (*de-ice, pre-existing, re-enlist*).

There are a few exceptions to these rules, such as: *cooperate, coordinate, pre-dawn, pre-position* (meaning to position personnel and equipment before acting), *pre-deployment, counter improvised explosive device* and *multi-Service*.

**Suffixes** Refer to *The Associated Press Stylebook* or *Webster’s New World College Dictionary* for guidance on whether or not to hyphenate a word with a suffix.

In general, adjectives with the suffix *-wide* are one word. For example: *basewide, not base-wide or base wide.* When attaching the suffix to an acronym, use a hyphen, as in *DoD-wide.*

**Compound words** Several terms can be either one or two words, depending on the use. In most cases, when used as a verb, they are two words, and when used as a noun or an adjective, they are one word. These rules apply to several other common terms, such as *stand down/standdown; line up/lineup; take out/takeout.*

The terms *onload* and *offload* are one word in all cases. However, the words are jargon, so use *load* or *unload* instead whenever possible.

The terms *check-in* and *checkout* are treated differently. Use *check-in* as a noun and adjective, *check in* as a verb. Use *checkout* as a noun and adjective, but *check out* as a verb.

**Capitalization**

**U.S. and foreign military** Capitalize service branch names when referring to U.S. forces; do not capitalize when referring to foreign military. For instance, it is *U.S. Army,* but *British army; Iraqi police,* not *Iraqi Police.*

Capitalize the proper names of foreign military branches: *British Royal Air Force,* not *British Royal air force.* However, in accordance with the rule above, the common noun would be *British air force.* In the same vein, it is *Afghan National Army,* or *Afghan army.*

Capitalize *Soldier, Sailor, Airman, Marine* and *Coast Guardsman* when referring to U.S. forces (*U.S. Soldiers,* but *Dutch soldiers*). However, *cadet* and *midshipman* are ranks, so capitalize them only when they’re used
before a name.

Do not capitalize airman or airmen when referring to unnamed Navy personnel; in that case, the term is part of a generic rank/rate. (e.g., U.S. Navy airmen stand in formation.) However, when it’s used as part of a Sailor’s rating, it is capitalized. (e.g., U.S. Navy Aviation Ordnanceman Airman John Smith salutes an officer.) Capitalize a rank or title (such as commanding officer) when it precedes a name; use lowercase when it follows a name, is set off by commas or stands alone.

| U.S. Army Capt. James T. Kirk, the commander of Alpha Company, visited an outpost every Tuesday. Chairman of the Joint Chiefs of Staff Army Gen. Martin E. Dempsey speaks with service members. |

**Proper nouns** A proper noun names a particular person, place or thing. Capitalize all proper nouns, to include names of people, organizations, operations and exercises (e.g., Sgt. Sharon Anderson, Department of Defense, New Dawn, Cobra Gold).

**Common nouns** A common noun names categories of persons, places or things.

| Incorrect: They were overrun by Security Forces during an Operational Readiness Exercise. |
| Correct: They were overrun by security forces during an operational readiness exercise. |
| Incorrect: The Female Engagement Team leaders met with the new members of the Provincial Reconstruction Team. |
| Correct: The female engagement team leaders met with the new members of the provincial reconstruction team. |

Capitalize common nouns only if they are part of a proper noun, such as a title or an organization (e.g., U.S. Embassy, Operation New Dawn).

A general rule is if there is more than one of something, do not capitalize.

**All caps** Do not use all capital letters for anything but acronyms. Ship names, release status and other terms should all be regular text. For example:

The hospital ship USNS Comfort (T-AH 20) moors off the coast of El Salvador Nov. 5, 2011. The ship was on a four-month humanitarian mission. (U.S. Navy photo by Mass Communication Specialist 1st Class John Smith)

| Incorrect: Forward Operating Base (FOB) |
| Correct: forward operating base (FOB) |
| Correct: Forward Operating Base (FOB) Walton |

**Acronyms** Acronyms are capitalized, but the terms to which they refer are only capitalized if they are proper nouns. Do not capitalize a term solely because it is assigned an acronym.
Chapter 8
DoD Visual Information Ethics

The Department of Defense (DoD), primarily DoD military, civilian and contractor personnel who produce, edit or release visual information (VI), must maintain complete credibility when presenting DoD VI as fact. All personnel involved in the creation of DoD VI shall ensure it meets or exceeds the highest ethical standards followed by the DoD and the news industry.

As visual information technology continues to advance, it is imperative DoD photographers maintain integrity by presenting VI accurately depicting a scene and subject as originally recorded by the camera. Photographers must acknowledge any manipulations beyond standard preparation of visual information for publication (e.g., other than basic correction of color, brightness and contrast, and judicious cropping that does not alter the context or meaning of the camera original).

DoD Instruction 5040.02, Enclosure 10, Section 4 states, in part, “The undisclosed modification or enhancement of official DoD imagery by persons acting for or on behalf of the DoD is prohibited. Any and all image modification or enhancement for any purpose must be disclosed in the caption data so that the image does not mislead or deceive.”

In this chapter, the differences between photos, photo illustrations and prohibited alterations will be outlined. Note the only two permissible categories for still photography in caption credits are ‘photo’ and ‘photo illustration.’ See Chapter 3, Photographer’s credit, page 29.

Photos
Department of Defense VI documentation is defined in DoD Instruction 5040.02 as “Imagery depicting actual events, activities, phenomena, places, or people, recorded primarily to create a record of the subject matter.”

In most cases, this refers to visual documentation of uncontrolled action, such as military training and operations in progress, in which the photographer has no bearing on the events around him/her.

However, it can also refer to certain instances of controlled action, such as official portraits, or personnel posing for a photograph during a formal event, such as a change of command or military ball. In those instances, the photographer may offer basic direction to the subjects of the image, such as where to stand.

For a given image to be labeled as a photo, only the most minimal and basic corrections as described above are permitted. Standard color and contrast adjustments for publication purposes do not need to be disclosed.

EXCEPTION: Occasionally, a photo or video will show Personally Identifiable Information (PII), such as identification tags or access badges, or other sensitive items. It is permissible to obscure such information using digital means, as long as it is made clear within the photo or video caption that portions of the image were blurred for security or privacy concerns. (See example at right)

Photo illustrations
Photo illustrations are images that have been manipulated beyond minimal corrections as described above, or were entirely staged by a photographer. Such visual information can be used with proper disclosure – for aesthetic, creative, artistic or other purposes such as highlighting a theme or illustrating a feature story.

Photo illustrations also include images that have been retouched, filtered or are manipulated in any other way. Images that are stitched together or contain cutouts, collages, panoramas, vignetting, multiple exposures (including High Dynamic Range techniques) or any added text or graphics are considered photo illustrations. The digital movement, addition or subtraction of any content or elements within an image used for illustrative purposes must be fully disclosed. Computer-generated
Artwork is always considered a photo illustration. The conversion of an original color photograph or video to black-and-white, or to isolate one color, before submission to DVIDS or DIMOC, requires disclosure as an illustration. Similarly, cropping a photo in such a way as to alter the original context of what was captured should be disclosed. Standard, judicious cropping to remove irrelevant background space is permitted without disclosure.

Using a filter in any type of electronic editing application to make an image appear blurred, solarized, embossed, or resemble, for example, sepia-tone, a painting, or having been taken on film likewise makes it a photo illustration requiring disclosure.

Photos or video that was staged or made use of props for illustrative purposes would also be considered a photo illustration.

The responsibility lies with the photographer — and anyone else involved in the processing of an image — to disclose manipulations above and beyond standard color adjustments.

Rule of thumb: If you think you need to disclose manipulation techniques used on an image, do so.

In short, if an image has been manipulated above and beyond basic color corrections, it must be labeled as such in the caption block, after the caption credit, using plain language, as shown in the examples at right.

NOTE: The disclosure also should appear in the Release Instructions field of the metadata (see page 37). This demonstrates the releasing authority is aware of the modifications to the image being sent to DIMOC.

Prohibited alterations

Any DoD photo or video that is altered to deliberately mislead or deceive the U.S. Government, DoD personnel, the media or the American people is strictly prohibited.

DoD Instruction 5040.02, Enclosure 10, Section 1 states, “The alteration of official DoD imagery by persons acting for or on behalf of the DoD is prohibited. Prohibited alterations include the addition, removal, or changing of photographic details. Examples of prohibited alteration include the addition, changing, or removing of individuals, equipment, scenery, or the unrealistic changing of color or light. Certain modifications or enhancements to official DoD imagery are permitted in accordance with section 4 of this enclosure.”

There have been several notable cases of altered DoD photos being submitted to public-facing websites and media outlets and presented as fact, resulting in one major news outlet temporarily banning all DoD-produced visual information from their wire services. Such prohibited alterations included changes to the background behind the subject, rank insignia, and uniform name tapes, as well as copying and pasting one person’s head on another person’s body, and removing people from an image.

In short, alterations intended to present or portray something different than the reality and context of the original image constitutes a visual lie, and is a serious threat to the credibility and trustworthiness of the DoD, the military services and the DoD Visual Information community.
