Executive Summary

The Office of the Secretary of Defense requests disposition authority for audio and visual records of the military services and other Department of Defense (DoD) components that are maintained by the Defense Imagery Management Operations Center (DIMOC). Proposed for temporary retention are records that do not provide significant documentation of DoD activities for such reasons as being duplicative, excessive in coverage, lacking in metadata, or relating to routine subjects. These records have temporary value because they have little or no research value or because significant information is captured elsewhere in permanent records. Proposed for permanent retention are records that provide important documentation of the DoD, including its combat and non-combat activities. These records have permanent value because they have high potential research value.
