Defense Media Awards season is in full swing

Staff reports
The 2018 Defense Media Awards season is in full swing, with a slate of improvements from last year.

According to Karen Nowowieski, the Defense Media Activity awards program manager, this is the third year of the revamped DMA-level awards program. The program is split into two main contests, the Defense Media Awards and Defense Media Merit Awards, both of which will be described below.

Nowowieski noted the Defense Visual Information Distribution Service (DVIDS) is still the required platform for all entries.

All products for submission to the awards programs must have been uploaded to DVIDS between Jan. 1, 2018 and 11:59 p.m. Dec. 31, 2018.

U.S. Army Col. Paul Haverstick, the acting director of Defense Media Activity, said, "This is my first time observing this program up close, and it's an honor for DMA to recognize the great work of our Public Affairs and Visual Information community throughout the Department of Defense and Coast Guard."

Defense Media Awards
The Defense Media Awards program will only judge the "of the year" winners from each military service.

FOR MORE INFO

(Credits, counterclockwise from top left: DVIDS screen grab; Travis Burcham, Defense Media Activity; U.S. Air Force 4th Fighter Wing; U.S. Marine Corps Sgt. Matthew Callahan) (DoD photo illustration by Karen Tobin)
Submissions are open through April 29, 2019. Eligibility for the Defense Media Awards includes, but is not limited to:

- No individual may enter the competition directly. Only one entry per category may be submitted from each of the following competitions:
  - Air Force: Air Force Media Awards
  - Army: Maj. Gen. Keith L. Ware Communications Awards
  - Coast Guard: Chief Journalist Alex Haley Awards
  - Marine Corps: HQMC Communication Directorate (CD), Visual Information and Excellence in Communication (VIEC) Awards
  - Navy: Russell Egnor Navy Media Awards
  - Defense agencies, DoD field activities, combatant commands, joint task forces:
    - Defense Media Merit Awards (DMMA) sponsored by the Defense Media Activity
  - Products entering the competition must be the work of active-duty, Reserve, and National Guard members of the Armed Services, and U.S. Coast Guard members as well as U.S. government civilian employees with the photographer, journalist, photojournalist, videographer, broadcast journalist, graphic artist, mass communication specialist, public affairs specialist or equivalent occupation specialty.

  - Note: Products produced by military and civilian personnel assigned to “Stars and Stripes” newspapers are not eligible to participate.

  All non-appropriated fund (NAF) products and NAF personnel are also ineligible. Products created by government contractor employees are not authorized to compete.

**Defense Media Merit Awards**

DMA is also hosting the Defense Media Merit Awards (DMMA). Submissions are open through March 5, 2019. The following personnel can compete in the DMMA:

- Defense agencies, DoD field activities, combatant commands, joint task forces:
  - Defense Media Merit Awards (DMMA) sponsored by the Defense Media Activity
  - Products entering the competition must be the work of active-duty, Reserve, and National Guard members of the Armed Services, and U.S. Coast Guard members as well as U.S. government civilian employees with the photographer, journalist, photojournalist, videographer, broadcast journalist, graphic artist, mass communication specialist, public affairs specialist or equivalent occupation specialty.

  - Note: Products produced by military and civilian personnel assigned to “Stars and Stripes” newspapers are not eligible to participate.

  All non-appropriated fund (NAF) products and NAF personnel are also ineligible. Products created by government contractor employees are not authorized to compete.

**Defense Media Merit Awards**

- National Guard Joint Force Headquarters staff members.
- Service members assigned to DMA (see guidance for details).

- Active-duty and Reserve military members assigned to combatant commands, joint task forces, defense agencies, and DoD field activities, including the Defense Media Activity.

The page also contains frequently asked questions and a list of 2017 winners.

Guidance on the DMMA program will also be found in the Media Contest Rules list on the Defense Media Awards page.

The DVIDS Awards submission page is at [https://cms.dvidshub.net/awards](https://cms.dvidshub.net/awards).
Enterpise Multimedia Center supports all DoD

By Lyna Tucker
Producer-Director
EMC Fort Eustis

The Enterprise Multimedia Center (EMC) Fort Eustis, Virginia, is the Army's premier enterprise for visual information (VI), to include photography, print, web design, fabrication, graphics, and television and video support.

Led by EMC Visual Information Manager Don Reeves, the EMC is poised to serve all military Services, the Department of Defense (DoD) and agencies throughout the Federal Government.

“The EMC is a one-stop shop for visual information. We have some of the best technology and talent available to serve not only the Army, but our sister Services and the rest of the Federal Government,” Reeves said.

The EMC boasts a 1,400-square foot television studio and fully complemented control room to equal any network studio. EMC’s award-winning producers, directors, writers, and videographers

DIMOC wants to preserve your historical media

If your unit, ship or organization has DoD-produced physical imagery taking up valuable space (i.e. prints, slides, films, tapes, negatives, discs, etc.), DIMOC can digitize it and make it available to you through the www.dimoc.mil web portal at no cost!

Regardless of the media’s age, such imagery is still an official DoD record, and must be properly archived according to Federal law and DoD regulations. Please do not throw it away or attempt to send scanned items to DVIDS or DIMOC.

For more information on submitting imagery to DIMOC, go to http://www.dimoc.mil/Submit-DoD-VI/Preparing-Physical-legacy-VI. Once you have inventoried your physical imagery, contact our archivists at DIMOC-Archivists@mail.mil.

EYE ON VI SUBMISSIONS

If you have a story or idea you think should be included, please email us your content. All story submissions must follow these standards: 1) Typed in Microsoft Word; 2) All images must be in the original JPEG format, submitted separately from the Word document, with required caption, attribution and metadata; 3) No more than 350 words.

DIMOC on Facebook
— using the latest in 4K video and drone capabilities — travel throughout the nation producing high-quality, award-winning products.

“We've got an amazing facility and it's an exciting place to work. We produce everything from single concept videos to multiple videos. For example, we're producing over 250 exercise videos for the Center for Initial Military Training as they roll out the new Army Field Manual 7-22 and Army Combat Fitness Test,” said EMC Producer-Director Robert Stephens.

The photography department provides support for the entire region east of the Mississippi, each year delivering more than 4,000 Department of the Army (DA) photos and up to 500 command photos. The team also covers up to 100 events annually, both locally and as far as Rock Island, Illinois.

The print center is equipped with the most advanced technology in the industry and each year processes up to 5,000 customer orders and produces over 60,000 pop-up targets used in training for units such as Army Special Forces and U.S. Navy SEALs.

The graphics department is equally busy, designing and producing upwards of 5,000 high-end graphics annually, from command boards to wall murals for the U.S. Army Transportation Museum and the Navy SEALs fitness center at Joint Base Little Creek-Fort Story, Virginia.

For training and graphic aids or design and installation services, the fabrication department is the go-to shop.

The department's highly skilled craftsmen and designers provide framing, painting, sheet metal, machining, woodworking, and welding services as well as 3-D printing.

“When a need arises in a unit, they bring their requirements and we make it a reality,” said Ron Houston, EMC fabrication department lead.

**Longtime DVI figure Lee Thomas retires**

Staff Reports

Lee Thomas, the Defense Visual Information (DVI) chief of policy and programs, and a leading institutional expert on all things Visual Information, retired from civilian service Jan. 31.

Before starting his civilian career at DVI, Thomas completed a 30-year Air Force career, where all but six years were in jobs related to VI. "Looking back, I guess I was a founding member of the 'Visual Information mafia,'" Thomas said.

"For example, as a Captain on the Air Staff in 1987, I got to play a role in changing the term "audiovisual" to Visual Information. I was also a member of the multi-service working group that created the Joint Combat Camera Center (JCCC) and the DVI team that conceived the VIRIN we use today."

After receiving his commission in 1980, Thomas’s first assignment was to the Headquarters Aerospace Audiovisual Service. His final assignment was to DVI as the Director. "During my military service I gained a lot of expertise and passion for the VI mission," Thomas said.

"After the Air Staff, they sent me for a graduate degree in Mass Communication where I completed a research thesis on the impact of new media technology. I used that analysis and research expertise to lead a school-wide transformation when I was the DINFOS Deputy Commandant a few years later. At the National War College, I studied information power and national security. All that education and experience helped me during my time as a Colonel. For example, I was part of a senior officer PA and VI assessment team brought by Gen. (David) Petraeus to Iraq to recommend actions to remove barriers to effective communication. Also, as DVI Director, I led a world-wide VI workshop focused on the information power of VI that was attended by more than 450 people from across the Department and eight allied nations."

After retiring in 2010, Thomas began his civilian career back at DVI.

"It wasn’t my original intention to return to DVI, but I’m very grateful I did," Thomas said.

"I wanted a job where I could play a key supporting role. At DVI, I was able to make a lasting difference in strategic areas like policy, doctrine and governance."

As he prepares to leave federal service, Thomas stressed the need for thinking strategically about VI. He sees the establishment of information as a joint function as a huge opportunity and challenge for VI.

"We’re part of a joint force doing battle in the information space. We need to be extremely agile. If we can’t do that, we run the risk of becoming irrelevant," he said. "We need all the VI experts to be looking at the big picture."

After leaving DVI for his second and final time, he plans to pursue a third master's degree, focus on his off-duty passion for fingerstyle guitar composing, and spend more time with Clarissa, his wife of 42 years.

**Ask DVI: Customer seeks hard copies of command newspaper**

By Mark E. Martin
DVI Customer Service Center

This month’s FAQ refers to a request from a military service member’s family as to how to locate printed copies of a command newspaper with information about their recently graduated service member.

**QUESTION:** “I was wondering if you would be able to send me a copy of the base newspaper printed on December 14th, 2018. My son is a Marine and he graduated on that day. I was not able to find any of your publications anywhere.”

**ANSWER:** The Defense Visual Information Customer Service Center (DVICS) provided both the base and local newspaper publishers’ contact and website information for the family member.

While many military publications are electronically posted to the DVIDS website, hard copies (if printed) are only available from the publisher or installation public affairs office.

Most military publications are now hosted on the DVIDS publication page located at https://www.dvidshub.net/publication.

If your unit or installation publication is not currently posted to DVIDS, you can establish an account at https://www.dvidshub.net/, and set up a new publica-
VI POLICY UPDATES

RECENTLY COMPLETED:

Joint Publication 3-0 “Joint Operations” incorporating Change 1, 22 October 2018

- This publication is the cornerstone military doctrine document of the Joint operations series. It provides guidance to joint force Commanders (JFCs) and their subordinates to plan, execute, and assess joint military operations.

- Change 1 incorporates the newly established “Information” as a joint function. Joint functions are related capabilities and activities grouped together to help JFCs integrate, synchronize, and direct joint operations.

- The information function encompasses the management and application of information and its deliberate integration with other joint functions to change or maintain perceptions, attitudes, and other elements that drive desired behaviors and to support human and automated decision making.

- Combat Camera and Public Affairs are now cited as Joint Force capabilities and activities for leveraging information power.

“Imagery is one of the most powerful tools available for informing internal and domestic audiences and for influencing foreign audiences.” (page III-25, para 3.d.(8))

IN PROCESS:

Joint Publication 3-61, “Public Affairs”

(Currently in Request for Feedback (RFF) stage)

This document was included in the CY 2018 Joint Doctrine Formal Assessment.

- RFF Released: July 2018
- RFF Phase Completion: January 2019

Comprehensive new Public Affairs Issuance: DoDI 5410.19 (in Pre-Signature stage).

This instruction is composed of four volumes, each with a specific purpose.

- Volume 1, “DoD Community Outreach Activities: Policy Overview and Evaluation Procedures.”

This volume includes policy on the commercial use of visual information.

- Volume 2, “DoD Community Outreach Activities: OSD Outreach Programs, Speaking Engagements, and Support to Non-DoD Organizations”

- Volume 3, “DoD Community Outreach: Honors to National Symbols; Annual Patriotic and Military Observances”

- Volume 4, “DoD Community Outreach: Ceremo-

UNDER DEVELOPMENT:

Full revision of DoDI 5040.02 “Visual Information” (in initial review stage).

- Adds new policy on the use of personal cameras.

- Adds new section on required VI documentation.

- Adds new section on VI as public information.

- Incorporates and cancels DoDI 5040.07 “VI Productions.”
